

Important Dates

Deadline of Abstract Submission: January 29th, 2010
 Deadline of Early-Bird Registration: March 31st, 2010
 Deadline of Online Registration: June 4th, 2010

Registration Fee

Early-Bird Registration, On and Before March 31, 2010

Full Registration: 65,000 YEN / Student: 40,000 YEN

Standard Registration, After March 31, 2010

Full Registration: 80,000 YEN / Student: 50,000 YEN

You will be able to make registration on the Web site from November, 2009.

Outline of Program

RETURN TO KYOTO

Invitation

We cordially invite you to attend the "International Conference on

Science and Technology of Synthetic Metals 2010" (ICSM 2010), which will be held on July 4th-9th, 2010, at Kyoto International Conference Center in Japan.

In order to promote international cooperation and exchange in the field of synthetic metals, and to provide a forum for continuing scientific discussion, ICSM has been held at Siofok (1976), New York (1977), Dubrovnik (1978), Helsingor (1980), Boulder (1981), Les Arcs (1982), Abano Terme (1984), Kyoto (1986), Santa Fe (1988), Tübingen (1990), Göteborg (1992), Seoul (1994), Snowbird (1996), Montpellier (1998), Bad Gastein (2000), Shanghai (2002), Wollogong (2004), Dublin (2006), and Porto de Galinhas (2008). The first ICSM to take place in Asia was held in Kyoto in 1986 and the prosperity of this field has indeed been conspicuous since that event, particularly in Asia. Keeping in mind our slogan, "Return to Kyoto," we are confident that the 20th ICSM will witness the passing of the baton from our illustrious predecessors to the next generation of researchers, who will further advance our understanding of synthetic metals and extend their applications in related fields.

Kyoto, the ancient capital city of Japan, has a history in excess of 1200 years. The conference venue is surrounded by many temples, shrines and breath-taking natural scenery. This conference will provide you with a rare opportunity to both observe the scientific progress on synthetic metals and enjoy the historical city of Kyoto, Japan.

 Chair of ICSM 2010

Conference Themes

- Inherently Conductive Polymers
- Molecular and Polymeric Materials for Electronics, Optoelectronics, Photonics and Magnetics
- Advanced Conjugated Materials and Technologies for Applications
- Organic Conductors and Superconductors
- Fullerenes, Carbon Nanotubes, Graphene and Related Nanostructures
- Molecular Magnets and Organic Spintronics
- Molecular/Polymer Transistors and Single Molecule Electronics
- Organic ELs, Polymer LEDs and Displays
- Energy Storage and Organic Photovoltaic Devices
- Next-Generation Organic Materials and Device Applications
- Supramolecules and Topological Materials
- Self-Assemblies, Ordered and Super-Hierarchical Structures
- Electrochemical Applications, Actuators and Sensors
- Bio-Related Nanomaterials, Technologies and Applications

Plenary Speakers

Prof. Alan J. Heeger, *2000 Nobel Laureate* (UCSB, USA)
 Prof. Sir Richard H. Friend (University of Cambridge, UK)
 Prof. Hidetoshi Fukuyama (Tokyo University of Science, Japan)
 Prof. Sumio Iijima (Meijo University, Japan)
 Prof. Julius Rebek, Jr. (The Scripps Research Institute, USA)

Keynote Speakers

Prof. Ray Baughman (USA)
 Prof. Jean-Luc Bredas (USA)
 Prof. Arthur J. Epstein (USA)
 Prof. Stephen R. Forrest (USA)
 Prof. Andre Geim (Netherlands)
 Prof. Yoshihiro Iwasa (Japan)
 Prof. Denis Jerome (France)
 Prof. Kazushi Kanoda (Japan)
 Prof. Klaus Müllen (Germany)
 Prof. Hiroyuki Nishide (Japan)
 Dr. Toshihiro Ohnishi (Japan)

Prof. Yung Woo Park (Korea)
 Prof. Virgil Percec (USA)
 Prof. John R. Reynolds (USA)
 Prof. Yoshinori Tokura (Japan)
 Prof. Zeev Vally Vardeny (USA)
 Prof. Gordon G. Wallace (Australia)
 Prof. Wolfgang Wernsdorfer (France)
 Prof. Fred Wudl (USA)
 Prof. Takakazu Yamamoto (Japan)
 Prof. Yang Yang (USA)
 Prof. Anvar Zakhidov (USA)
 (as of July 30, 2009)
